## Mixed quarter; execution remains in focus

### Quick Pointers:

- Base order inflow increased ~10.0% YoY to Rs35.5bn, while large orders decreased by 44.8% to Rs2.1bn in Q1CY25
- Domestic/export revenue mix stood at 93%/7% vs (92%/8% in Q1CY24).

*We revised our EPS estimates for CY25/CY26 by -1.5%/-1.5% factoring in executing delays in Process Automation. ABB India (ABB) reported quarterly performance with modest revenue growth of 2.6% YoY with flattish EBITDA margin of 18.4%. During the quarter, the growth was led by strong momentum across all segments except in Process automation which was impacted by a change in delivery schedule. Order book pipeline remains robust seeing strong traction from fast growing diverse business segments, such as Data Center, Electronics and Renewables along with traction equipment like propulsion systems and traction motors for rail & metro. Management's efforts for expanding in Tier-2 and Tier-3 cities are yielding results while the base order intake is projected to sustain at ~Rs35bn per quarter. Going forward, management continues to guide for the PAT margin of 12-15% (15.4% in CY24) with a strategic focus on consumption, investments, premiumization and global uncertainties.*

*We remain positive on ABB given 1) increasing traction for energy efficient and premium quality products, 2) resilient business model, 3) focus on high-growth areas such as data centers, rail & metro, renewables and electronics, and 4) strong domestic order pipeline. The stock is trading at a P/E of 58.8x/51.4x CY25/26E. We maintain 'Buy' rating with a revised TP of Rs6,851 (Rs6,955 earlier) valuing the stock at a PE of 63x CY26E (same as earlier).*

### Execution Strength in Core Segments Offsets Process Automation Weakness:

Revenue grew modestly at 2.6% YoY to Rs31.6bn (PLe: Rs34.4bn) led by healthy execution in Robotics, Electrification and Motion while Process Automation was down due to lower systems and process industries revenue. Robotics revenue increased by 37.0% YoY to Rs1.5bn while Motion revenue increased by 8.2% YoY to Rs11.0bn. Electrification revenue also increased by 4.7% YoY to Rs13.6bn meanwhile, Process automation revenue declined 19.3% YoY to Rs5.9bn. Gross margin increased by 146bps YoY to 41.7% (PLe: 39.7%). EBITDA rose 3.0% YoY to Rs5.8bn (PLe: Rs5.9bn) with EBITDA margin remaining flat at 18.4% (PLe: 17.2%) driven by better gross margin performance partially offset by higher operating costs. PAT rose 3.2% YoY to Rs4.7bn (PLe: Rs4.9bn) driven by better operating profitability.

**Healthy Order book stands at Rs99.6bn (0.8x TTM revenue):** Order inflows for Q1CY25 increased by 4.0% YoY to Rs37.5bn, driven by base order intake growth of 9.6% YoY to Rs35.5bn. Base/Large order intake mix stood at 95%/5% (vs 90%/10% in Q1CY24). Order book stands healthy at Rs99.6bn (0.8x TTM revenue) with segmental mix of 5%/39%/34%/22% for Robotics/Motion/Electrification/Process Automation.

**Exhibit 1: Higher employee cost (+10.9% YoY) and other expenses (+8.1% YoY) offset the Gross margin expansion**

## Conference Call Highlights

- **Order inflows for Q1CY25 grew by 4.0% YoY to Rs37.5bn**, due to the strong inflow of base orders received in Q1CY25. Base orders grew ~10% YoY to Rs3.5bn with traction from segments like electronics, railways, data centers, energy, metals and mining and building and infrastructure.
- Q1CY25 product/service/project mix was 73%/14%/13% with management expecting the service revenue mix share to reach 15%; Q1CY25 domestic/export revenue mix stood at 93%/7% with exports orders growing by 40% YoY; and channel mix was 40%/39%/10%/11% across direct sales/partners/EPCs/OEMs.
- **Electrification:** Newly launched product in Electrification segment, LIORA Switches for commercial and residential spaces gained strong traction in Q1CY25. Revenue increased by +5% YoY, supported by broad-based growth across segments, a strong execution backlog, and higher service business contribution. Margins improved due to a favorable revenue mix and better price realization in the segment. However, order inflow declined by -2.0% YoY to Rs17.6bn due to a one-time large data center order received in Q1CY24.
- **Motion:** Order inflow grew by +6.0% YoY to Rs1.25bn driven by a high-value traction solutions order worth ~Rs 2.0 bn from Indian Railways and increased demand for drive products and services. Revenue increased +6% YoY due to higher revenue contributions from drives products and services along with execution of high value projects. Company remains focused on expanding and localizing its Motion division's products portfolio across various business segments.
- **Process Automation:** Revenue declined (-19.0% YoY to Rs5.9bn) due to change in customer delivery schedules and cautious approach amid macroeconomics uncertainties, leading to delayed decision making and deferred project execution. However, Margins improved due to favorable revenue mix with higher service business contribution. Order inflow fell by -16.0% YoY to Rs4.5bn primarily due to lower system orders and delays in projects. While management believe the base business, fast moving consumer goods, continues to perform well, while the large projects are still in pipeline but held back by customers due to macros uncertainties.
- **Robotics:** Order inflow surged to Rs 3.2bn (+114% YoY from Rs1.5bn), mainly driven by strong demand in electronics segment which continues to offer significant growth opportunities. Revenue also saw robust growth of 37.0% YoY to Rs1.5bn, backed by efficient execution of orders across emerging business segments.
- **Product Portfolio Expansion:** During the quarter, the company expanded its product portfolio with the launch of two new products:

A) **LIORA Switches** – A special range of modular switches designed for both commercial and residential applications.

B) **Motion Low Voltage Flameproof Motors** – Introduced in higher frame sizes, this new range offers enhanced safety, reliability, and efficiency.
