

TRADER'S EDGE

FREQUENTLY ASKED QUESTIONS (FAQs)

1. **What is Trader's Edge?**

Trader's Edge is new generation trading tool which gives automated Buy & Sell signals through predefined Technical Rules. Trader's Edge can be used as 100% mechanical and system based trading system. On our trading system, you can select your trading plan & can carry out one click multiple order executions. It is universal so that it can be applied to any markets. Trader's Edge has provided traders with specific optimal buy and sell signals as well as dynamic risk-control.

2. **Why do you need Trader's Edge?**

Trader's Edge is to help people develop a full-time trading business that produces consistent, above-average profits under various market conditions. Most traders are losing money. This is because most of them are disorganized traders and make instant trading decisions influenced by hope, greed and fear. What separates the profit makers is that they are organized traders and have their own trading plan as per their trading style.

3. **What is Trading Plan?**

A Trading plan is a set of rules which clearly defines what, when & how trading is to be done. A foolproof trading plan executed through robust technology is what transforms a disorganized trader into an organized trader.

4. **On what basis Buy & Sell signals are generated?**

Signals are generated on the stocks volatility. Price if crossed the volatility range either any directions, then Buy/Sell entry signal is generated with a calculated entry stop loss.

5. **How does a trailing stop loss work?**

A trailing stop is designed to protect gains by enabling a trade to remain open and continue to profit as long as the price is moving in the right direction, but closing the trade if the price changes direction by a specified percentage.

6. **What is 'No Trading Zone'?**

During sideways market Trader's Edge generates lesser number of signals due to the inbuilt concept of "No Trading Zone" in the strategy. Trader's Edge generates signals only when there is strength in the trend.

7. **How can I access Trader's Edge software?**

Trader's Edge is a subscription based tool in the Fox Trade software. It can be accessed in Trading option Signal Manager.

8. Which segments signals are given?
