Nifty ended up above the hurdle zone of 24400 level to improve the bias and can anticipate for futher rise in the coming sessions. Market Forecast

Nifty daily range 24300-24700

Nifty, maintaining the positive bias intact has witnessed a gradual rise in the last two sessions and closing above the hurdle of 24400 zone has improved the bias further with overall sentiment maintained with a cautiously positive approach as of now. The index would be aiming for the near-term target of 24800 zone which if decisively breached above, can achieve for the next upside target of 25200 level with currently the important 200 period MA at 24050 level positioned as the crucial support zone which needs to be sustained to maintain the overall trend positive.

BankNifty, after the recent strong run up, has been found sluggish in in the last few sessions and has been gripped between the tight range of 56000 and 54500 levels which needs to be breached decisively on either of the side for fresh directional move. The index would need a decisive breach above 56000 zone to confirm a breakout and can expect for another fresh round of momentum with targets of 57200 and 58500 levels visible in the coming days provided the 54500 zone is sustained as of now.

The support for the day is seen at 24300 levels while the resistance is seen at 24700 levels. BankNifty would have the daily range of 54500-55500 levels.
