Nifty witnesses resilience amid tense scenario

Nifty witnessed a decent recovery after the weak opening and amid high fluctuations closed in the green near 24400 zone. BankNifty witnessed high volatile session during the intraday session, with a decent bounce back at the fag end of the session, to end on a positive note above 54600 level. The market breadth was overall maintained strong with the advance decline indicating a ratio of 2:1 at close.

Market Forecast

Nifty daily range 24200-24600

Nifty, after opening on the lower side near 24220 zone recovered significantly and with high volatility witnessed during the intraday session ended marginally on the positive side, amid the border tensions looming around. The index is precariously placed maintaining the support near 24300 zone and sentiment turning into a very cautious approach, the index would have the crucial and important support zone near the 200 period MA at 24050 levels which needs to be sustained. BankNifty, with high fluctuations witnessed, recovered during the last hours of the trading session to close near the 54600 zone awaiting the FED outcome, once again maintaining above the important support zone of 54500 level. On the upside, as mentioned earlier, the index would need a decisive breach above 56000 zone to confirm a breakout and thereafter, expect for fresh round of momentum in the coming days.

The support for the day is seen at 24200 levels while the resistance is seen at 24600 levels. BankNifty would have the daily range of 54000-55200 levels.
