Nifty retests 24500 zone; witnesses pullback

Nifty amid a highly volatile session witnessed a gap down opening and retested the important support of 24500 level during the intraday session to end near the 24600 zone witnessing some recovery in the fag end. BankNifty once again recovered from the 54500 zone amid the fluctuations and closed near the 54900 level finding consolidation. The market breadth was overall flat with the advance decline indicating a almost neutral ratio at close.

Market Forecast

Nifty daily range 24450-24800

Nifty, with a gap down opening session witnessed a volatile session and breached below the important support of 24500 zone but managed to recover in the final hours to close the session near 24600 level with bias still maintained positive overall. The index would need to sustain above the 24500 zone failing which the next crucial support would be the 200 period MA at around 24000 level and on the upside a decisive breach above the 25000 zone is necessary to trigger for fresh upward move in the coming days.

BankNifty, continue to hover near the 55000 zone with no major directional witnessed for quite some time and as mentioned earlier, is gripped between the 55700 and 54400 levels which needs to be breached on either side to trigger for fresh directional move. The overall bias is maintained cautiously positive with most of the frontline banking stocks finding consolidation with bias overall maintained positive.

The support for the day is seen at 24450 levels while the resistance is seen at 24800 levels. BankNifty would have the daily range of 54500-55600 levels.
