Nifty amid volatilty ends near 24800 zone

Nifty once again failed to breach above the 25000 zone and with profit booking witnessed closed the session near 24800 level with bias maintained intact. BankNifty has been oscillating between the narrow range of 55800 and 54400 zone for quite some time and would need a clear breakout to expect for fresh upward move. The market breadth was overall flat with the advance decline indicating a neutral ratio at close.

Market Forecast

Nifty daily range 24700-25000

Nifty, amid high volatility witnessed a steep fall in the morning session to hit the low near the 24750 zone thereafter to regain strongly but once again found resistance near the 25000 level to slip down to end the session near 24800 level with overall bias maintained positive. The index needs to breach above the 25000-level barrier to continue with the upward journey while on the downside 24500 zone is positioned as the important support level which needs to be sustained to maintain the overall bias intact.

BankNifty, repeatedly has been failing to conquer above the tough hurdle of 55800 zone with profit booking dragging the index to end inside the narrow band of 55800 and 54400 levels with bias maintained positive and as mentioned earlier, a decisive breach above the 55800 zone is much needed to trigger for fresh upward move having targets of 57200 and 58500 levels possible in the coming days.

The support for the day is seen at 24700 levels while the resistance is seen at 25000 levels. BankNifty would have the daily range of 55000-56000 levels.
