Nifty tanks; sustains 24500 zone

Nifty on the back of rising geo-political tensions, tanked in the morning session to recover from the crucial support zone near 24500 level and manage to close above the 24700 level with sentiment maintained with a cautious approach. BankNifty slipped below the important 55800 zone with bias turning weak and with the next major support positioned near the 54500 level, would need to check for further developments. The market breadth was weak with the advance decline indicating a ratio of 2:3 at close.

Market Forecast

Nifty daily range 24500-25000

Nifty witnessed a huge gap down near the important support area at 24500 level on the back of rising geo-political tensions and with sentiment maintained with a very cautious approach, one need to wait and watch for further developments with 24000 zone positioned as the crucial and major support near the 200 period MA which needs to be sustained to maintain the overall trend intact. On the upside, for the bias to improve, the index needs a decisive breach above the 25000 level to anticipate for further rise in the coming days.

BankNifty, tanked below the important 55800-56000 band in the morning session and with bias weakening, would need to sustain above the important 50EMA zone at 54500 level to maintain the overall trend intact. Currently, with the index precariously, a decisive move above 56000 level in the coming sessions can improve the bias and can expect for further upward movement with 57000 zone as the crucial resistance zone.

The support for the day is seen at 24500 levels while the resistance is seen at 25000 levels. BankNifty would have the daily range of 55000-56200 levels.
