Nifty slips below the 25000 zone

Nifty amid profit booking witnessed especially from the Financial sector dragged the index to slip beow the important 25000 zone, weakening the bias. BankNifty on the back of weak cues from Axis Bank slipped below the 56600 zone with profit booking witnessed and has weakened the bias closing near the 56300 level. The market breadth was weak with the advance decline indicating a ratio of 2:3 at close.

Market Forecast

Nifty daily range 24800-25200

Nifty once again lost control and indicating a lower top formation on the daily chart slipped below the important 25000 zone to slightly weaken the bias and has arrived near the crucial support zone area of the 50EMA level at 24900 which needs to be sustained to maintain the overall trend intact. Also, the base of the ascending channel pattern on the daily chart lies near the 24900 zone which is at stake and the much-awaited results of the heavyweight giants – HDFC Bank and ICICI Bank would be released, which would decide the next course of the market. For the bias to improve, the index would need to move past the 25250 zone decisively.

BankNifty, succumbed to heavy profit booking post the weak result outcome of Axis Bank which dragged the index to breach below the near-term support of 56600 zone and has slightly weakened the bias with next major and crucial support positioned near the 50EMA zone at 55900 level which needs to be sustained. On the upside, it would need to breach above the resistance zone of 57600 level and thereafter, expect for fresh higher targets of 58500 and 60000 levels in the coming days, as mentioned earlier.

The support for the day is seen at 24800 levels while the resistance is seen at 25200 levels. BankNifty would have the daily range of 55500-57000 levels.
