## **Market Forecast**

#### Nifty daily range 24500-24800

Nifty once again witnessed a narrow rangebound session hovering near the 24600 zone with bias still maintained with a cautious approach and would need to breach above the 24800 zone on the upside to establish conviction and clarity, thereafter to anticipate for further rise in the coming sessions. On the downside, as mentioned earlier, the index needs to sustain above the low made near 24300 zone as of now to maintain the bias intact.

BankNifty, has been witnessing a narrow rangebound movement for quite some time gripped between the 55000 and 55700 zone desperately waiting for a decisive breakout on either side to get clarity and confirm a directional move in the coming days. With the index precariously placed at current juncture, as said earlier, a decisive breach below the 54400 zone shall trigger for intensified selling pressure overall weakening the trend with next major support positioned near the important 200 period SMA at 52700 zone.

The support for the day is seen at 24500 levels while the resistance is seen at 24800 levels. BankNifty would have the daily range of 54800-55800 levels.
