## **Market Preview**

### Nifty ends above the 25000 zone; bias improving

Nifty ended on a positive note for the 3rd consecutive session closing above the 25000 zone to improve the sentiment expecting for further rise in the coming sessions. BankNifty remained rangebound showing passive participation as of now and would need a decisive breach above the 56400 level to get conviction and expect for further rise. The market breadth was positive with the advance decline indicating a ratio of 3:2 at close.

### **Market Forecast**

#### Nifty daily range 24900 - 25300

Nifty continue to gain strength sustaining above the important 50EMA level which is positioned near the 24850-zone maintained as the strong near-term support and currently closing above the 25000 level has further improved bias and sentiment overall. With the broader markets supporting the benchmark index, on the upside, Nifty needs to breach above the important hurdle of 25250-25300 zone which shall establish further stability and conviction for further upward movement in the coming days.

BankNifty continue to remain sluggish with no clear directional move hovering near the important 50EMA zone at 55800 level and would need a decisive breach above the 56400 zone to improve the bias and thereafter expect for further upward movement in the coming days. On the downside, the 55000 level would remain as the important support zone which needs to be sustained as of now to maintain the overall bias intact.

The support for the day is seen at 24900 levels, while the resistance is seen at 25300 levels. BankNifty would have the daily range of 55300-56200 levels.
