Nifty sustains above 25000 zone; ends flat

Nifty ended on a flat note sustaining above the important 25000 zone with bias and sentiment slowly easing out and can anticipate for further rise in the coming days. BankNifty remained sluggish once again with narrow movement during the intraday session to end on a flat note. The markte breadth was overall flat with the advance decline indicating a neutral ratio at close.

Market Forecast

Nifty daily range 24900 - 25300

Nifty witnessed a rangebound session maintaining above the 25000 zone but finding resistance near the 25150 level with bias overall improving and can expect for further rise in the coming days with the sentiment also easing out. The index would have the important 50EMA level near the 24850-zone as the strong near-term support while on the upside, as mentioned earlier, needs to breach above the important hurdle of 25250-25300 zone which shall establish further stability and conviction for further upward movement in the coming days.

BankNifty once again remained subdued hovering near the important 50EMA zone at 55800 level and witnessing a rangebound session ended on a flat note and as said earlier, would need a decisive breach above the 56200 zone to improve the bias and thereafter expect for further upward movement in the coming days. On the downside, the 55000 level would continue to remain as the important support zone which needs to be sustained as of now to maintain the overall bias intact.

The support for the day is seen at 24900 levels, while the resistance is seen at 25300 levels. BankNifty would have the daily range of 55300-56200 levels.
