Market Forecast

Nifty daily range 24600-25000

Nifty after opening on a weak note, witnessed a strong recovery to touch the 24950 zone but resisted near the important 50EMA zone and fizzled out with heavy profit booking seen to close near the 24750 level with bias and sentiment precariously placed as of now. As mentioned earlier, on the downside, the index has got the crucial support at 24500 level which needs to be sustained to maintain the overall trend intact and at the same time, on the upside would need to breach above the 25000 zone to improve the bias and expect for further rise.

BankNifty, witnessed a decent recovery from the 55500 level to scale 56400 zone but witnessing resistance slipped down to end just below the 56000 level with bias once again maintained with a cautious approach. The index is hovering below the important 50EMA zone of 56100 level and would need a decisive revival to move past the barrier with overall bias precariously placed having the major support now positioned near the 100 period MA at 54500 zone.

The support for the day is seen at 24600 levels while the resistance is seen at 25000 levels. BankNifty would have the daily range of 55500-56600 levels.
