Market Preview

Nifty hovers near the 50EMA at 24800 zone

Nifty witnessed some positive movement in the initial half which fizzled out in the final hours to erase the gains with overall sentiment easing out slightly, anticipating for further rise in the coming days. BankNifty continue to hover within a narrow range and need some strong pullback to improve the bias and sentiment overall. The market breadth was overall positive with the advance decline indicating a ratio of 3:2 at close.

Market Forecast

Nifty daily range 24600 - 25000

Nifty, with some volatility witnessed some improvement but resisted near the 24900 level during the intraday session to end on almost flat note with sentiment slightly easing out with the broader markets indicating some positive cues in the last two sessions. As mentioned earlier, the index needs to close above the important 50EMA level at 24800 zone decisively to establish conviction and thereafter, expect for further upward move with 24500 level positioned as the important and crucial support zone as of now.

BankNifty, once again witnessed a failed attempt to move past the 54500 zone finding resistance and slipped to close on a flat note near 54200 level with overall witnessing a rangebound movement for the time being. As said earlier, the index would need a decisive move past the 55000 zone to overall improve the bias and thereafter, anticipate for fresh upward move in the coming days with 53600 level maintained as the important support zone which needs to be sustained.

The support for the day is seen at 24600 levels, while the resistance is seen at 25000 levels. BankNifty would have the daily range of 53800-54800 levels.
