Market Preview

Nifty manages to end above the 25000 zone.

Nifty, after the positive opening session, remained rangebound and ended above the 25000 zone to maintain an optimistic approach, anticipating further upward movement. BankNifty looks technically well poised for further rise in the coming days, with major frontline banking stocks looking good. The market breadth was overall flat, with the advance decline indicating a neutral ratio at close.

Market Forecast

Nifty daily range 24850 - 25200

Nifty witnessed consolidation in the 24900–25000 zone & managed to close above the 25000 level after forming a higher bottom formation on the daily chart. With the bias overall remaining intact, one can expect a revival in the coming sessions. As mentioned earlier, the index would have the near-term resistance at the 25200 - 25250 zone, which needs to be breached decisively to further improve the bias, and thereafter, to retest the 25650 level to strengthen the trend once again. The 50EMA level of the 24800 zone shall remain as the major and crucial support for the index, which needs to be sustained as of now.

BankNifty, indicating strength, once again witnessed a pullback towards the level of 54750 and gained momentum to close near the 20DMA level of the 54666 zone, with most of the PSU Banks also supporting the frontline banking stocks, expecting a further rise in the coming sessions. As mentioned earlier, the index would have important near-term support at the 53500 level, and on the upper side, a decisive breach above the 50EMA level of the 55200 zone would trigger a fresh upward move in the coming days.

The support for the day is seen at 24850 levels, while the resistance is seen at 25200 levels. BankNifty would have the daily range of 54000-55300 levels.
