## **Market Forecast**

#### Nifty daily range 25000 - 25400

Nifty, witnessed a volatile session resisting near the 25250 level and taking support near the 25100 zone during the intraday session, closing marginally on the losing side overall witnessing a gradual slide from 25450 level with bias slightly turning weak. As mentioned earlier, the index would have the major support near the 50EMA level at 24900 zone which needs to be sustained to maintain the overall trend intact while on the upside only a decisive breach above the 25500 level would bring conviction to continue with the positive uptrend in the coming days.

BankNifty, on the other hand witnessed a pullback from the important 50EMA zone at 55200 level to end the session near 55500 zone to form a higher bottom pattern on the daily chart anticipating for further follow through of the positive move in the coming sessions. With an Inverted head and shoulder pattern in process on the daily chart, a decisive move above the neckline zone of 55900 level shall trigger for fresh upward move in the coming days provided the 55000 zone is sustained to maintain the overall bias intact.

The support for the day is seen at 25000 levels, while the resistance is seen at 25400 levels. BankNifty would have the daily range of 55200-56000 levels.
