Market Preview

Nifty slips further; crucial support at 24900 zone

Nifty extended the losses further almost arriving near the 25000 zone with bias weakening along with the broader markets slipping down, with much anticpation of a revival among the market players in the coming days. BankNifty also lose steam moving below the 50EMA at 55200 level with bias slightly weakening and would need a significant revival to maintain the trend intact. The market breadth was weak with the advance decline ratio of 1:2 at close.

Market Forecast

Nifty daily range 24900 - 25300

Nifty, continue with the gradual downward slide for the 4th consecutive sessions with bias getting weak and has arrived near the 25000 zone with 24900 level positioned as the important support zone which is where the confluence of the significant 50EMA and 100 period SMA lies. With the broader markets also cooling off from the recent peak with profit booking, arrived near the important 50EMA zone where one can expect for some revival to expect for a trend reversal and thereafter, anticipate for fresh upward move during the festive season by end of the month.

BankNifty, shed some gains with profit booking witnessed and has just moved below the 50EMA zone at 55200 level with bias slightly shaken. As mentioned earlier, with the Inverted head and shoulder pattern still in process on the daily chart, a decisive move above the neckline zone of 55900 level shall trigger for fresh upward move in the coming days provided the 54800-55000 support band is sustained to maintain the overall bias intact.

The support for the day is seen at 24900 levels, while the resistance is seen at 25300 levels. BankNifty would have the daily range of 54700-55700 levels.
