## **Market Preview**

#### Nifty ends near the 25000 zone

Nifty managed to recover and end near the 25000 zone with bias and sentiment precariously placed and would need a significant pick up to improve the bias. BankNifty remained dull with very narrow movement witnessed during the intraday session and is placed near the crucial support zone at 55000 level. The market breadth was overall flat with the advance decline indicating a neutral ratio at close.

# **Market Forecast**

### Nifty daily range 24800 - 25200

Nifty formed an inside bar pattern on the daily chart with a close near the 25000 zone after opening on a positive note in the morning sessions with hopes of positive developments awaited in the coming sessions. The index has managed to sustain above the important 50EMA at 24850 zone which is the near-term support as of now and on the upside, would need a decisive breach above the 25250 – 25300 zone to establish conviction and stability for further rise, as mentioned earlier.

BankNifty continue to remain sluggish with narrow movement visible in recent times and would need to sustain the important support zone of 55000 level and to improve the bias, would need to decisively break above the 56000 zone to gather strength and thereafter, expect for further rise in the coming days. The heavyweight banking stocks are all gripped between a tight range and desperately would need a fresh move to establish conviction and stability.

The support for the day is seen at 24800 levels, while the resistance is seen at 25200 levels. BankNifty would have the daily range of 54700-55700 levels.
