Market Preview

Nifty breaches below the 24500 zone

Nifty continued with the losing streak breaking below the important 24500 zone with bias and sentiment getting into very cautious mode. BankNifty extended the losses further with most of the frontline banking stocks shedding their gains and has the next important support near the 200 period SMA at 52900 level. The market breadth was weak with the advance decline indicating a ratio of 2:3 at close.

Market Forecast

Nifty daily range 24300 - 24600

Nifty amid the weak sentiment slipped below the important 24500 zone with bias getting weaker day by day extending the losses and currently with the Head and Shoulder formation on the daily chart has got the neckline near the 24300 level which shall be a crucial zone that would decide the further course of the market in the coming days. As mentioned earlier, the index would have the next major support near the significant 200 period SMA at 24000 zone which needs to be sustained and, on the upside, only a major move above the 50EMA level at 24800 zone shall improve the bias from current rate.

BankNifty ended on the lower end with weak bias failing to find a revival and is precariously placed having got the next major support near the significant 200 period SMA at 52900 level which needs to be sustained to maintain the overall trend intact. On the upside, a decisive move past the 55000 zone is necessary to indicate a recovery and ease out the sentiment.

The support for the day is seen at 24300 levels, while the resistance is seen at 24600 levels. BankNifty would have the daily range of 53200-54200 levels.
