## Market Forecast

### Nifty daily range 24900 - 25200

Nifty has been finding resistance near the 25200 zone and has slipped down with profit booking witnessed to touch the 25000 zone during the intraday session with bias and sentiment still maintained intact. The index would have the important 50EMA at 24900 zone as the immediate support for the coming sessions which needs to be sustained to maintain the optimistic approach and as mentioned earlier, a decisive breach above the important hurdle at 25300 zone is necessary to establish conviction and clarity for further rise in the coming days to carry on with the ongoing uptrend.

BankNifty, failing to overcome the 56250-zone witnessed some profit booking amid fluctuations and closed near the 56000 zone with bias remaining positive having the neckline zone of the Inverted Head and Shoulder pattern at 55600 level positioned as the important support from current level which needs to be sustained. On the upside a positive move till 57700 zone can be anticipated with the overall sentiment maintained positive and a decisive move past 56500 zone is required to regain the momentum.

The support for the day is seen at 24900 levels, while the resistance is seen at 25200 levels. BankNifty would have the daily range of 55500-56600 levels.
