Market Preview

Nifty slips; ends near 25150 zone

Nifty witnessed profit booking and slipped below the 25200 zone with bias and sentiment once again maintained with a very cautious approach. Bank Nifty remains sluggish and has managed to maintain near the 56500 zone with bias and sentiment maintained intact. The market breadth was once again weak, with the advance decline indicating a ratio of 2:3 at close.

Market Forecast

Nifty daily range 24950 - 25300

Nifty once again failed to move past the 25300 zone, and with a gradual slide witnessed, managed to sustain above the 25100 levels with bias and sentiment maintained with a cautiously positive approach. The 25000 zone shall be very crucial for the index, which needs to be sustained, and with the result season started, we anticipate volatility and fluctuations during the intraday session. A significant move past the level of 25400 is very important to improve the bias and establish conviction to anticipate a further upward move in the coming days.

Bank Nifty has been hovering near the 56000-56800 zone for the last 3 days and, as mentioned earlier, would need to breach above the 57300 zone decisively to trigger a fresh upward move with conviction. The 20DMA zone of the 55570 level would be important near-term support for the index, which needs to be sustained as of now.

The support for the day is seen at 24950 levels, while the resistance is seen at 25300 levels. Bank Nifty would have the daily range of 56000-57000 levels.
