Market Forecast

Nifty daily range 25900 - 26300

Nifty witnessed a highly volatile session slipping down with profit booking seen and ending near the 26000 zone with the broader markets sliding down after finding resistance near the peak zone with bias still maintained intact. The index would have the near-term support at 25800 zone which needs to be sustained and, on the upside, once a breakthrough above the 26200 zone is confirmed, then can expect for fresh higher targets of 26700 and 27200 levels in the coming days, as mentioned earlier.

Once 58500 zone is sustained, the index can expect for another fresh round of upward move with targets of 60000 and 61600 levels visible.

The support for the day is seen at 25900 levels, while the resistance is seen at 26300 levels. BankNifty would have the daily range of 58500-59400 levels.
