## Market Forecast

### Nifty daily range 25800 - 26100

Nifty, slowly and steadily has headed towards the 26000 zone with bias and sentiment getting better and anticipating for further positive developments in the coming days. The index once confirmed a decisive close above the important and crucial zone of 26000 level shall establish conviction and thereafter, can expect for further rise having targets of 26200 and 26300 level with 25750 maintained as the important support zone.

BankNifty continues to oscillate between the narrow range of the 60500 – 60800 zone, and on the downside is supported by the 60000 zone, which needs to be sustained to keep the positive bias intact. A decisive breach above the 60800 level shall trigger a fresh upward move with targets of 61500 and 62000 levels achievable in the coming sessions.

The support for the day is seen at 25800 levels, while the resistance is seen at 26100 levels. Bank Nifty would have the daily range of 60000-61200 levels.
