Market Forecast

Nifty daily range 24600 - 25000

Nifty, after witnessing heavy losses in the last 3 session, indicated a revival picking up from the low made near 24300 zone to bring some temporary relief and closed in the green near the 24765 level with overall sentiment maintained with a very cautious approach. The index would need to settle down and move past the 25300 zone to establish conviction and clarity to anticipate for further upward movement in the coming days. The 24300 zone shall be maintained as the important and crucial support as of now which needs to be sustained.

BankNifty has sustained the low made near the 58400 zone which is the base of the ascending channel pattern on the daily chart and is a crucial support zone as of now for the index which needs to be sustained to maintain the overall bias intact. The index would need to move past the important 50EMA level at 59900 zone to improve the bias and thereafter, anticipate for further rise in the coming days provided there is stability and clarity established. On the downside, the important 200 period MA at 57500 zone would be the crucial and major support to be watched for in the coming days.

The support for the day is seen at 24600 levels, while the resistance is seen at 25000 levels. BankNifty would have the daily range of 58500-59700 levels.
