Nifty tanks heavily; sentiment shaken

Nifty witnessed another major sell off to lose almost 400 points to end near the low at 23850 zone with sentiment maintained with a very nervous approach. BankNifty amid heavy profit booking tanked heavily to close near the 55700 level losing strength with bias maintained with a very cautious approach. The market breadth was weak with the advance decline indicating a ratio of 2:3 at close.

Market Forecast

Nifty daily range 23700 - 24100

Nifty, in the last 3 sessions witnessed high fluctuations with gap ups and gap downs, with once again subjected to heavy profit booking tanking heavily with a huge bearish candle formation on the daily chart closing near the 23850 zone with bias and sentiment very much precariously placed. The index would have the recent low made near 23700 zone as the important and crucial support level to be watched for in the coming sessions which needs to be sustained failing which the overall sentiment can turn very much bearish.

BankNifty witnessed heavy profit booking to slide steadily as the session progressed to end near the 55700 zone with sentiment maintained with a nervous approach with no signs of easing out in the middle east geo-political tensions. The index would now have the previous major low made near 53600 zone as the crucial and important support which needs to be sustained to maintain the overall trend intact and only a decisive move above the 200 period MA at 57500 level can improve the bias, thereafter, to establish some conviction.

The support for the day is seen at 23700 levels, while the resistance is seen at 24100 levels. BankNifty would have the daily range of 55000-56500 levels.
