Market Forecast

Nifty daily range 23400 - 23800

Nifty, extended the gains from the previous session making the high at 23650 level to end the day in the green at 23580 zone with the revival continuing for the second consecutive session. Auto and Metals were among the major sector which pulled the index and as mentioned earlier, would need to carry on with the positive move and cross 24400 zone to establish conviction and get clarity for further upward move in the coming days. At the same time, the index would need to sustain the important support of 23000 zone as of now.

BankNifty witnessed further gains to almost touch the 55000 zone during the intraday session and has witnessed some revival from the bottom made near 53300 zone, which needs to continue further to improve the bias in the coming days. As said earlier, the index has a long way to go and would need to breach above the 56500 zone to establish some clarity and conviction to anticipate for further developments in the coming days. The current low made near 53300 zone would be the important support for the index as of now.

The support for the day is seen at 23400 levels, while the resistance is seen at 23800 levels. BankNifty would have the daily range of 54000-55700 levels.
