## Market Preview

### Nifty tanks further; 22000 zone crucial support

Nifty crashed further hitting new low at 22470 zone with sentiment getting worse and market nervously positioned as of now. BankNifty has lost control crashing below the important support zone of 53200 level with bias maintained with a very cautious approach. The market breadth was very weak with the advance decline indicating a ratio of at 1:7 close.

## Market Forecast

### Nifty daily range 22300 - 23000

Nifty, continue to witness heavy profit booking and has crashed below the recent low made at 22950 zone indicating a series of lower top formation on the daily chart with currently hitting a new fresh low at 22470 level has further worsened the bias. The index would need to cross above the initial hurdle of 23400 zone and thereafter, close above the 23800 zone to establish conviction and clarity for further positive developments, with 22000 zone positioned as the important and crucial support for the coming days.

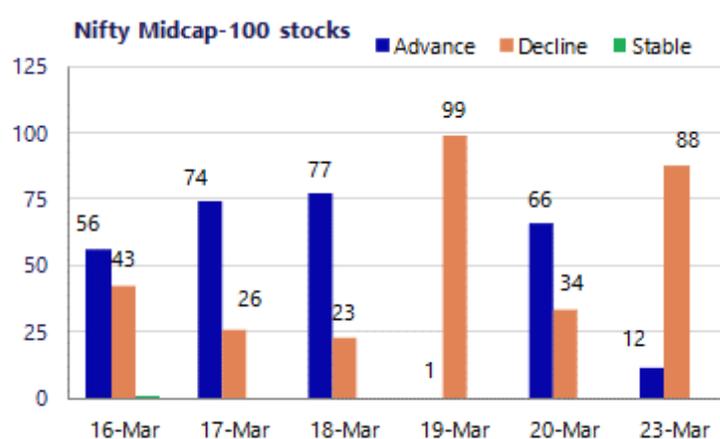

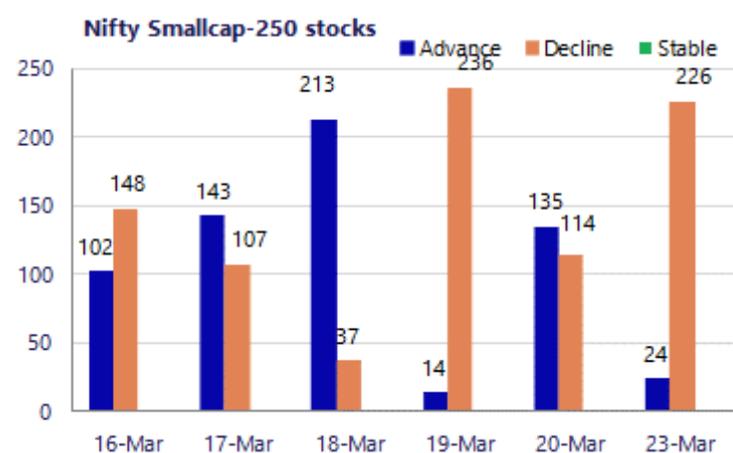

BankNifty further tanked heavily to breach below the crucial support zone of 53200 level with bias and sentiment getting weaker, having next support levels at 49000 and 47700 levels for the coming days. The index would need to breach above the initial hurdle at 53500 zone and thereafter, a decisive close above the 55500 level shall only establish some conviction and stability to anticipate for further upward move in the coming days.

The support for the day is seen at 22300 levels, while the resistance is seen at 23000 levels. BankNifty would have the daily range of 50700-52500 levels.
