Market Forecast

Nifty daily range 24200 - 24500

Nifty has almost indicated a bullish engulfing pattern on the daily chart sustaining above the important 50EMA at 24200 zone to improve the bias and can expect for further rise in the coming days with the bias maintained with an optimistic approach. As mentioned earlier, the index would have the important resistance hurdle of 24400 zone which needs to be breached decisively to establish further conviction whereas the 24000 level shall be the near-term important support which needs to be sustained to maintain the overall outlook intact.

BankNifty continue to remain stagnant hovering near the important 200 period MA at 57450 zone for quite some time and has been sustaining above the 50EMA at 57200 level maintaining the bias intact with consolidation visible on the daily chart. As said earlier, the index would need a decisive breakthrough above the tough resistance hurdle of 58500 zone, to establish conviction whereas, the important and major support would be positioned near the 100-period MA at 56000 level which needs to be sustained to maintain the trend intact.

The support for the day is seen at 24200 levels, while the resistance is seen at 24500 levels. BankNifty would have the daily range of 57000-58000 levels.
