Market Forecast

Nifty daily range 24000 - 24400

Nifty, after witnessing the strong opening session, fizzled out from the resistance barrier at the 200EMA level of 24378 and closed near the 24200 zone with bias maintained with a cautiously positive approach as of now. As mentioned earlier, the index would need to decisively breach above the hurdle of the 24400 level to establish conviction and stability and thereafter can expect for further rise in the coming days. On the downside, the 24000 level shall be positioned as the important near-term support that needs to be sustained.

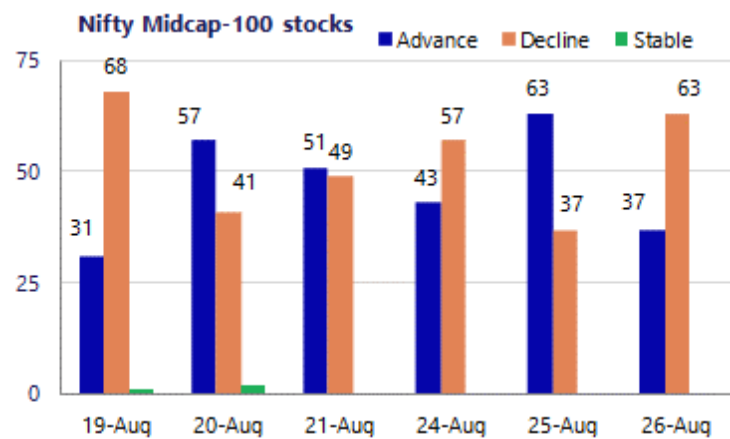

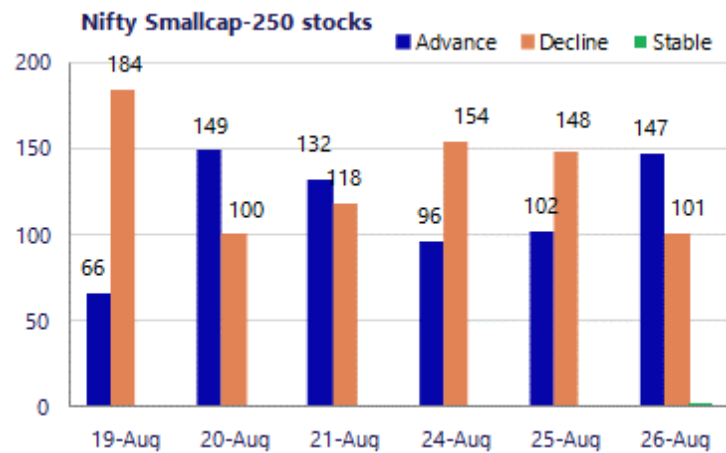

BankNifty ended the session in the green, with consolidation witnessed in the range of the 57300–58000 zone, sustaining above the near-term support zone of the 50EMA level of 57250, with bias maintained with a positive approach as of now. As mentioned earlier, the important support at 57250 and thereafter, 57000 levels, shall be the crucial zone that needs to be sustained in the coming sessions, whereas on the upside, the 58200 level would be the important hurdle that needs to be breached above decisively.

The support for the day is seen at 24000 levels, while the resistance is seen at 24400 levels. BankNifty would have the daily range of 57000-58500 levels.
