Nifty slips below 50EMA at 24200 zone

Nifty closed on a weak note below the 50EMA at 24200 level with bias weakening and the 24000 zone is under threat which needs to be sustained to maintain the bias intact. BankNifty continue to be rangebound for quite a long time sustaining above the 50EMA zone at 57200 level but finding tough resistance near the 58000 zone. The market breadth was weak with the advance decline indicating a ratio of 1:2 at close.

Market Forecast

Nifty daily range 24000 - 24300

Nifty once again witnessed a weak session slipping below the important 50EMA at 24200 zone to slide further with the broader markets showing passive participation and shall have the 100-period MA at 24000 level as the important near-term support which needs to be sustained. The index would continue to have the important resistance hurdle of 24400 zone only above which one can expect for further upward move in the coming days. The 23800 zone shall be the important and crucial support area which needs to be sustained to maintain the overall trend intact.

BankNifty continue to be gripped between the tight range of 58000 and the 50EMA zone at 57200 levels with prolonged stagnancy witnessed and would desperately need a decisive breach on either side to establish a directional move in the coming days. As said earlier, the index would need a decisive breakthrough above the tough resistance hurdle of 58500 zone, to establish conviction whereas, the important and major support would be positioned near the 100-period MA at 56000 level which needs to be sustained to maintain the trend intact.

The support for the day is seen at 24000 levels, while the resistance is seen at 24300 levels. BankNifty would have the daily range of 57000-58000 levels.
