Market Forecast

Nifty daily range 23000 - 23400

Nifty witnessed some volatility in the morning session but thereafter remained rangebound near the 23250 zone to find consolidation sustaining the support of 23150 level as of now with bias and sentiment still maintained with a very cautious approach. As mentioned earlier, the index would need a decisive move above the 23800 zone to establish conviction and thereafter, only can expect for further follow through of the positive move whereas, on the downside, the 23000 zone would be the important and crucial near-term support which needs to be sustained.

BankNifty sustaining the 55800 zone as the support zone, witnessed a gradual rise during the session to close near the 56300 level with the bias and sentiment still precariously placed and is maintained with a cautious approach. The index would have the important near-term support near the 55500 zone which needs to be sustained while on the upside the 50EMA at 57100 level shall be the important hurdle which needs to be breached decisively to establish conviction.

The support for the day is seen at 23000 levels, while the resistance is seen at 23400 levels. BankNifty would have the daily range of 55600-57000 levels.
