Market Forecast

Nifty daily range 22600 - 23000

Nifty indicated a strong revival from the low made near the 22200 zone and with a positive candle formation on the daily chart has closed on an optimistic note near the 22800 level with bias and sentiment slightly improving, anticipating for further rise having 23000 zone as the initial target in the coming sessions. The index would have the crucial support near the 22200 zone on the downside and on the upside, a decisive breach above the 23000 level is necessary to establish conviction and clarity for further upward move.

BankNifty witnessed some revival to close just above the 55000-level sustaining the 54000 zone as the important support area and would further need to pick the momentum to improve the bias and sentiment overall. As mentioned earlier, the index would have the crucial and major support positioned near the 53000 zone which needs to be sustained and, on the upside, a decisive move above the confluence of 50EMA and 100 period MA at 56500 zone is necessary to establish conviction and thereafter, expect for further upward movement in the coming days.

The support for the day is seen at 22600 level, while the resistance is seen at 23000 levels. BankNifty would have the daily range of 54500-56000 levels.
