Nifty tanks heavily; ends near 22200 zone

Nifty witnessed steady and heavy profit booking as the day progressed to end on a very weak note near the 22200 level with sentiment shattered and is positioned with a tense approach. BankNifty fizzled out the gains and closed near the 55500 zone with bias weakening once again expecting for further slide in the coming sessions. Market Forecast

Nifty daily range 22000 - 22500

Nifty tanked heavily with a huge bearish candle formation on the daily chart once again retesting the previous low made near 22180 zone with bias and sentiment maintained with a tense approach as of now. With the index precariously placed, would have the next important and crucial support near the 21800 zone on the downside failing which the overall trend would turn bearish and can invite for further selling pressure in the coming days. On the upside, as mentioned earlier, a decisive breach above the 23000 level is necessary to establish conviction and clarity.

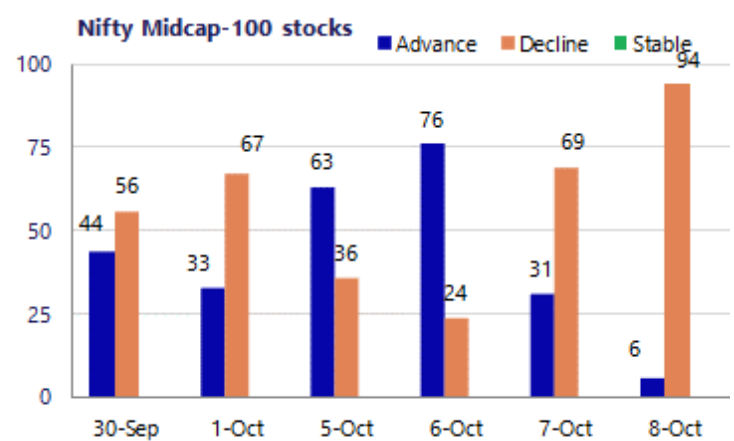

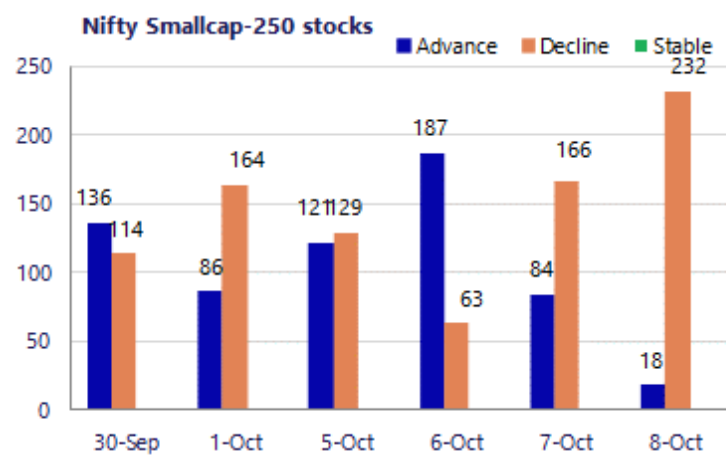

BankNifty witnessed heavy profit booking and slipped heavily to end near the 54500 level with a lower top formation on the daily chart to further weaken the bias and can expect for further slide in the coming sessions. As mentioned earlier, the index would have the crucial and major support positioned near the 53000 zone which needs to be sustained and, on the upside, a decisive move above the confluence of 50EMA and 100 period MA at 56500 zone is necessary to establish conviction and thereafter, expect for further upward movement in the coming days.

The support for the day is seen at 22000 level, while the resistance is seen at 22500 levels. BankNifty would have the daily range of 54000-55000 levels.
