Market Preview

Nifty extends gains; ends above 25200 zone

Nifty witnessed a huge gap up opening near the 25400 zone on the back of positive cues from the global front with the trend getting stronger. BankNifty raced towards the 61400 zone during the intraday session with the frontline banking stocks witnessing strong buying activity. The market breadth was strong with the advance decline indicating a ratio of 5:2 at close.

Market Forecast

Nifty daily range 25000 - 25500

Nifty once again witnessed a strong gap up opening and crossed the 25400 zone during the intraday session with the trend getting stronger extending the gains, and at the same time, the technical parameters hovering near the highly overheated territory, would need a pause or some cooling off to settle down to take a breather. The chances of some profit cannot be ruled out in the coming sessions, with the index having the near-term support at 24800 zone while the major support zone would be positioned near the 24500 level which needs to be sustained to maintain the overall trend intact.

BankNifty indicated a strong and huge gap up opening above the 60500 zone with an intraday high of 61400 level visible and has almost reached the previous peak zone of 61760 level which can be retested in the coming days. With the bias and sentiment maintained strong, index can carry on with the positive move further ahead with the near-term support positioned near the 58600 zone which needs to be sustained. On the upside, a decisive breach above the 61700 zone confirmed, would indicate a breakout to trigger for fresh further upward move in the coming days having targets of 63800 and 67000 levels expected.

The support for the day is seen at 25000 level, while the resistance is seen at 25500 levels. BankNifty would have the daily range of 60000-61700 levels.
