Market Forecast

Nifty daily range 25100 - 25500

Nifty gained momentum in the morning session and thereafter, remained rangebound resisting near the 25400 zone and closing near the 25300 zone with bias maintained strong. As mentioned earlier, the chances of some profit cannot be ruled out in the coming sessions with the technical parameters positioned at their overbought zone and would have the near-term major support at 24800 zone which needs to be sustained to maintain the overall trend intact. On the upside, the index would aim to retest the previous peak zone of 26300 level in the coming days with sentiment overall maintained optimistic.

BankNifty continue to gain further ahead and has raced towards the 61500 zone almost to retest the previous peak zone of 61760 level with the trend gathering strength anticipating for further rise in the coming days. On the upside, a decisive breach above the 61700-zone shall trigger for fresh upward move with indication of a breakout having targets of 63800 and 67000 levels expected as mentioned earlier. On the downside, the 59600 level would be the immediate important support which needs to be sustained to maintain the overall trend intact.

The support for the day is seen at 25100 level, while the resistance is seen at 25500 levels. BankNifty would have the daily range of 60500-627000 levels.
