Nifty witnessed a gap up opening and sustained above the 25200 zone with bias once again regaining and expecting for further rise to retest the previous peak zone. BankNifty hit ATH with strength gaining further and with optimistic view maintained expected to rise futher. Market Forecast

Nifty daily range 25100 - 25500

Nifty after a short period of pause has picked up once again to close near the 25300 zone with bias once again gaining strength and a decisive breach above the 25425 zone shall trigger for a breakout to anticipate for fresh upward move in the coming days. However, the chances of some profit cannot be ruled out with the important support is positioned near the 24800 level which needs to be sustained to maintain the overall bias intact. On the upside, the index would aim to retest the previous peak zone of 26375 zone in the coming days once it resumes the upward trend.

BankNifty gained further and hit the All time high of 61712 level during the intraday session and has indicated the ATH closing figure with the overall trend gaining strength and further rise is expected in the coming days. As mentioned earlier, on the downside, to fill up the gap, the 59600 level would be the immediate important support which needs to be sustained to maintain the overall trend intact whereas on the upside, a decisive breach above the 61700-zone shall trigger for fresh upward move with indication of a breakout having targets of 63800 and 67000 levels expected as mentioned earlier.

The support for the day is seen at 25100 level, while the resistance is seen at 25500 levels. BankNifty would have the daily range of 61000-62200 levels.
